East Boldre Parish Council

Notice of Meeting of the Parish Council

Minutes from Allotment meeting on 26th Feb 2019

7pm – the Village Hall

Present:

Cllr K Holmes – Chairman

Bruch and Ruth McDermott – Allotment association

Nicola Curzon – Parish Clerk

In attendance - 14 allotment holders, Cllr Hawker, Cllr Husband and Cllr Mulhall

5.0. Setting the scene

- There was a water leak on allotment 2 which, even after the awarding of a £1000 leak allowance from Bournemouth Water, cost the council £1000 in water charges, and a further £931 in maintenance costs to replace the water pipes; and put in new standpipes.
- The allotments cannot be subsidised by the Council (other than management costs, which we pay via the clerk's salary and the time councillors all give) Therefore the council must build a maintenance charge into the allotment rent so that a fund can be built up to cover the cost of any future costs.

6.0. Cost of allotment water

- The cost of water for allotments 1 and 2 for 2018-19 can only be estimated because of the leak on allotment 2. However, using the water bill for allotment 1 as a reflection of the amount of water used by plot holders, there is a huge increase in the cost of supplying water to the allotment sites (the council received £297.50 in contributions towards water from tenants in 2018 and the water bill for allotment 1 alone was in excess of £330)
- The clerk has spoken to NSALG to obtain legal advice on covering the cost of the increased water charges fairly. The use of water last summer was high due to the extended periods of dry weather. Both the allotment association and the parish council sent out emails asking plot holders to use water carefully and considerately.
- NSALG has advised that the shortfall in water costs should be split equally amongst all tenants this year, at a cost of £10 per tenant. At the February Parish Council meeting, it was agreed that this will be charged to allotment holders, in April 2019.
- The water has previously been charged as a percentage of the size of each allotment plot. This has caused some complaints as a small allotment plot may be intensively cultivated, the plot holder using more water than someone with a larger plot.
- The council has been asked to re-distribute water charges so that they are fair.
- In periods of particularly dry weather, allotment holders need to be very vigilant about water use. Nobody should be excessively watering their plots. Water butts should be used whenever possible. In dry weather, hoses should only be used to fill watering can. Allotment holders are advised to look at the allotment rules.
- Stephanie Bennet, an allotment holder and parish clerk at Dibden and Hythe, told the meeting that the water at Dibden and Hythe Parish Council is charged in arrears, at the end of the year. Their allotment rent is also charged in October, which is something the council may consider in future.

East Boldre Parish Council

Notice of Meeting of the Parish Council

- The allotment association will look at the possibility of installing a valve which shuts off water when it has been left running for a great length of time. This will also prevent any further extensive water leaks.

7.0. Allotment rent increase 2020-21

- A notice period of 1 year must be given for a rise in allotment rent. The parish council has not increased allotment rent since 2014. The clerk suggests a rent increase of approximately 5% for 2020. (The Forestry Commission increased its rent by 5% in 2016, this has not been reflected in the council allotment rents). In 2020 the cost of water will be included in allotment rent. In future, there should be a rent rise each year to cover maintenance.
- Although the parish council should not make a profit from allotments, they must allow a fund for ongoing maintenance in the rent charged, to cover ongoing costs. So long as allotment rent is seen as reasonable, the council rent should include maintenance. Any profit collected in a maintenance fund must go back into the allotments.

Suggested rent increase for 2020 – this will need to be agreed by East Boldre Parish Council in March 2019

	Full 1012 sq m	Three Quarter 753 sq m	Half 500 sq m	Quarter 253 sq m	Eighth 125 sq m	Included
2007	£30		£18.50			NSALG + Ins

2020	£75 (incl water)	£60 (incl water)	£45 (incl water)	£30 (incl water)	£20 (incl water)	NSALG + INS

8.0. To review allotment rules

- The council has been asked if it is possible to delegate powers to an allotment official who can advise on the day to day issues at the allotments. It was agreed that Jo Holmes would check the fencing on a monthly basis at allotment 1 and Cllr Hawker will check fencing on allotment 2
- Bruce and Ruth McDermott will check the water meters on both sites regularly, to ensure that there is no excessive water consumption.
- Growing produce on an allotment site which may go on to be used as part of a business (eg growing feed for livestock which may go on to be sold or vegetables, fruit or flowers which

are sold) contravenes the allotments act. The allotments should be used to grow flowers, fruit and vegetables for personal consumption only.

- The issue of Plots holders who are currently growing grass, animal feed and cultivating excessive amounts of vegetables will be raised at the parish council meeting in March.
- The NSALG legal team has advised that these plot holders be given notice that the council can no longer allow this because not only are the plots in breach of multiple clauses of the tenancy agreement, but they are also not allowed under the Allotments acts 1908-1950.
- The NSALG has advised that a notice period of one year is given to allow the plot holders to decide if they wish to change their plot use or remove their possessions and vacate their plot by 1st April 2020.
